July 18, 1980

Dear George:

Your letter came today and I wanted to write and thank you for making my day. I really enjoyed the sincerity and feeling in the material written by members of Bristol Lit.

I was really grateful and surprised to see you at Greenville. We are growing a lot when two guys like us can get together and talk in Lewisburg one week and Greenville the next.

Our literature committee is getting better. Our Monday night meeting is going to work out fine, I think. Our group voted to take the Rainbow material over to the typesetter today to start getting type set. It's just too hard to double type out all that material. Especially when we keep adding four pages. We'll just work harder for new subscriptions and set up a distribution system here to offset the expense.

Please keep in touch and say hi to Debbie. Oh yeah, please try to have your members give at least their first names so we can get in touch with them if we need to. Like: Pam B.- Bristol Lit. The real ego trip to me is when those who have our message in their hearts but won't write it down for those others who don't even know we exist. We are only instruments of a Power, greater than ourselves. God Bless!

In Loving Service,

Bo Sewell, Chairman  
WSC Literature Committee
