July 31, 1980

Dear George:

This is the first time I've been caught up on my correspondence in quite a while. I've been working like hell lately and it's easy to get behind. Tomorrow night - the Rainbow!

I appreciate the phone calls and the letters. I love the material Pete sent the other day. Lots of feeling. Fran from Montreal wrote the other day. It was good to hear from her. She has a bright spirit.

Wichita will be here before we know it. They call and write a lot now. I think it's going to be the best World Convention so far. I look forward to seeing you there.

Our new literature committee meeting is catching on. I messed up and talked a little about business but I caught myself. They really like to write. There are a few like Hank and Ed who I am careful to keep informed but most members are just glad some things happening and looking for some certain thing to help with.

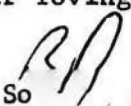

I like hhe poem Debbie gave you. It had a lot of truth in it. I'm glad we get to cheat the reaper a day at a time though. At the end I would add a few lines:

Later you found a new way to go.  
Recovery from me has to be slow.  
I thought I had you tight in my grasp  
You won after all and escaped the past.

I wish you well in your new life  
Remember what I taught you in strife.  
There's no hope in dope, hear what I say:  
Stay clean and sober and treasure each day.

It's six in the morning so I'll close now. Write soon!

Your loving Friend,

  
Bo So Chairman
