Dear George:

This is the night before the day I expect to send you the Step material we talked about. Sorry for the delay but I've just had to keep doing the next thing till I get caught up. Tonight it is letters. Last night it was the minutes from the Conference. We are working on getting the Rainbow out this week. I was simply flabbergasted at how much got done at Lincoln. We've held two Saturday workshops about literature. The third will be this Saturday at the Clubhouse down in Atlanta. We are getting up the interest and enthusiasm it will take to do the four or five hundred pages of type up. Please urge your committee to send down as much as possible on the Traditions. It's really needed.

Now that the dust has settled a little bit, I am settling back and going over the memories from Wichita and Lincoln. I wish I could live in an NA city. Just get a whole town of us somewhere. I guess I do anyway in effect.

It was exciting to hear your plans for a clubhouse going forward. The deep kind of atmosphere of recovery you can get going in a Tradition guarded Club can open spiritual doors for you and those who get to serve.

Give my love to Debbie, Pete and Barbara ...

In Loving Service,

BA
