Just For Today

Tell ourselves:

Just For Today our thoughts will be on our recovery living and enjoying life without the use of drugs.

Just For Today we will have faith in someone in NA who believes in us and wants to help us in our recovery.

Just For Today we will have a program, we will try to follow it to the best of our ability.

Just For Today Through NA we will try to get a better prespective on our lives.

Just For Today we will be unafraid, our thoughts will be on our new associations, people who are not using and who have found a new way of life. So long as we follow that way, we have nothing to fear.
