Dear Trusted Servants of the World Service Committee,

There are miracles within miracles; we're all miracles within the Big miracle of N.A. - especially myself!

It overwhelms me, and fills me with awe and true humility just observing all that God is working in, through and with our Fellowship. Certainly it follows no logic or the accepted tools of the social sciences. All we can do is stand back in awe and reverence and make ourselves worthy instruments of His Grace in the Fellowship.

If I can help in any small way to serve the N.A. fellowship, to spread its message, to prevent even one suffering addict from dying before trying N.A. - then I offer my services for what they are worth. I mean, God can work even through the likes of me.

So, I'm formally offering, in writing, to serve on the World Service Board of Trustees and, to the best of my ability and few finances, to fulfill the serious responsibilities that office must entail. God knows! I'll have a lot to learn, because, up to now, I have served best on the one to one, street and prison level. But I'm not too old to learn and keep growing with N.A.

I'll leave it all to God's will expressed through your group conscience.

Prayerfully Yours in the Fellowship of N.A.

Fr. Daniel Egan, S.A.

"The Sunkie Priest"

P.S. I just spoke with Jimmy K. in the Hospital. Give him a hug for me + assure him of my continued prayers -
