Dear Jim and Kathleen,

Hope you all arrived safely. We reached Doylestown by 11:00 a.m. and had a great talk on the way home. What a spiritual day in my life! Thank you for being a part of my recovery.

I was reflecting back on the dreams that everyone expressed last night and know that Dave was listening and perhaps helping us express thoughts that suggested positive action rather than mere words of reaction to anger, dissapointment and negative experiences.

Did I experience the start of a resurrgence of NA AS SUCH? It seemed the underlying theme of all of the dreams was to be free from the California monster. Should we just practice our recoveries under the steps and traditions and let the monster die a slow and natural death. I'm not afraid of monsters and I know you two aren't.

Meeting Charlie, Carl and Dean was great. Now I will have faces on my friends out West. I hope to utilize the open willingness extended to me to ask them for help.

Let me know that you receive this quick fax note. I'll send the draft of the letter to the WSO attorney for your input. I love you both.

Respectfully yours,

Greg
