OFFICIAL MINUTES OF BUSINESS MEETING

8TH WORLD CONVENTION OF NARCOTICS ANONYMOUS

September 23, 1978

Houston, Texas - Shamrock Hilton Hotel

Meeting opened at 9:30 A.M. with the Serenity Prayer.

The first order of business discussed was the frequency of future World Conventions. There were several proposals submitted.

- a) A suggestion was made to hold a World Convention every year.
- b) A proposal was made to hold the World Convention every few years instead of each year, the reasoning being: as each individual area holds Conventions or Conferences or similar events throughout the year, the response would decrease for a World Convention and there would be less response and support on the World level. The suggestion was to promote each area to hold a Regional Convention each year and have a World Convention every few years, this could make the World Convention a bigger and better event attended by more addicts.
- c) A general consensus of the people present at the business meeting indicated that N.A. needs the yearly World Convention, at least at this time. The World Convention is for the people - not N.A. as a whole. The World Service Office isn't involved at all with the Convention, it is the people who handle the Convention in all respects.
- d) A proposal was made that until all areas of N.A. have hosted or had the opportunity to host the World Convention that it would be held each year. The six areas mentioned in this proposal were: the Northwest, the Southwest, the North Central, the South Central, the Northeast, and the Southeast. After each of these areas have had the opportunity to host the World Convention, each area would then be able to hold their own Regional Conventions each year and the World Convention would be held every three or five years.
- e) Another proposal was made to continue holding the World Convention each year but alternate the hosting city from the East coast to the West coast. This would enable the high concentration areas to support the low concentration areas. After much discussion on this proposal it was stated that the World Convention helps the low concentration areas immensely. An example was the current 8th World Convention held in Houston, Texas, which is a low concentration area. The Convention brought the Groups together and greatly strengthened N.A. in the Houston area. It was stated that the high concentration areas could easily hold their own Convention anyway, but the low concentration areas need the support of many other areas to make a Convention successful.
- f) A similar proposal was made to proposal (d) above. The exception to this proposal was that no one state could host the World Convention more than once in five years.
- g) A proposal was made to continue holding the World Convention each year, and have representatives from each of the five or six Regions be the voice of N.A. regarding locations of future Conventions.

The general consensus of the people at the business meeting was that most areas need the yearly Convention on a World level. Most areas are not yet strong enough to hold their own Regional Conventions.

The discussion and proposals were then closed as to the frequency of the future World Conventions. Motions were asked for and the motions were put to a vote.

MOTION: A motion was made and seconded that for the next four years the World Convention would be held annually, once in each of the four remaining areas which have not yet hosted the World Convention.

VOTE: A vote was taken by a show of hands and the motion was denied.

MOTION: An amendment was made to the last motion to designate that the World Convention need not be held in each remaining area, but just that it be made available to each area of the country that has not yet hosted the Convention. The amendment was seconded.

VOTE: A vote was taken by a show of hands and the motion was denied.

MOTION: A motion was made and seconded that the World Convention would be held annually for the next four years without stipulating where it would be held. The topic would then be discussed and re-evaluated at that time.

DISCUSSION: A discussion followed the motion and it was suggested that the Regions concentrate on holding annual Conventions in conjunction with the World Convention so that in four years we may have the option of changing the frequency of the World Convention.

VOTE: A vote was taken on the motion by a show of hands and the motion carried with only two opposed.

The second order of business discussed was the criteria for bidding on future World Convention sites and the procedure for voting.

A number of proposals were presented:

- a) A proposal was made for each city represented at the convention to elect a voting representative from their city - one representative from each city. Each voting representative would cast one ballot on voting for any motions proposed at the business meeting of any World Convention.
- b) A proposal was made that, due to the fact that a city is too undefinable as in proposal (a) above, the voting representative should be elected from each Area Service Committee - one representative from each A.S.C.
- c) A proposal was made that the vote for future sites of the World Convention be left up to group conscience by ballot. Everyone present at the convention would have one vote - ballots would be handed out upon registration and the outcome of the vote would be announced at the banquet. It was decided that this proposal would be no good because the areas desiring the convention could not express their needs and capabilities prior to the vote being taken.
- d) A proposal was made that a committee or advisory council be established comprised of members from each area, possibly five members. This committee would represent N.A. as a whole for voting on future sites for the convention. This would have to be an ongoing committee with new members taking over for committee members leaving. It was suggested that the committee change members one at a time. The main requirement for members of this committee would be that they attend EVERY convention, this would be a must.
- e) A proposal was made that if an area really wants to host the World Convention bad enough they will come and try to get it. They will get representatives from their area on the advisory council and will present their bid for any committee or advisory council to vote on.

(continued)

Example of proposal (e): The Houston N.A. area busted their ass for 9 months before finally all of the groups pulled together to help support the 8th World Convention and make it a success. The Houston area reported that N.A. has grown immensely since they won the bid to host this convention.

- f) A proposal was made that the people who really care about the Convention are the people who are in attendance at the convention. A suggestion was made for the people present at the convention to hear the various bids from the different areas seeking to host the next World Convention; then the people who it affects the most, the participants of the Convention itself, could vote on future sites of conventions.

This discussion and the proposals were then closed as to the criteria for bidding and the procedures for voting. Motions were asked for and the motions were put to a vote.

MOTION: A motion was made that all people present at the business meeting of the convention will make up the voting body on the presented bids from various cities or areas. This is to be ongoing each year until a future Convention Business meeting changes it.

DISCUSSION: On the discussion before the vote for the motion it was pointed out that probably 80% of the people at the convention would not be at the next convention because they were newcomers. For this reason it was suggested that each city should elect one representative to vote on the bids.

VOTE: A vote was taken on the motion as stated above by a show of hands and the vote resulted in a tie.

The tie vote resulted in further discussion and proposals on the motion. The reason for further discussion and a decision trying to be reached was stated as the fact that this convention is trying to set some kind of precedence for future conventions so policies could be adopted and a record of these policies be kept for future reference.

The following proposals were presented during this discussion:

- a) A proposal was made that ballots be given to and counted from the body of people then present at the business meeting.
- b) A proposal was made that the World Convention is a "people's convention" - not a "business convention". Thus no committees were needed to vote. The people at the business meeting could vote after hearing the bids.
- c) A proposal was made for ONE representative from each region or area to be chosen as that body's trusted servant - to hear and vote on bids.

REVOTE: A revote was taken on the past motion that all people present at the business meeting of the convention will make up the voting body for bids - this to be ongoing until changed at some future Convention Business Meeting. The motion was denied.

MOTION: A motion was made and seconded that ballots be issued to all present at the convention and the votes counted. Thus the choice of sites would be popular vote by ballot.

DISCUSSION: On the discussion before the vote it was stated that to give people the vote without their hearing the bids would be no good.

(continued)

DISCUSSION: People must be at the business meetings and hear the bids before they are qualified to vote.

VOTE: A vote was taken on the motion by a show of hands and the motion was denied.

MOTION: A motion was made and seconded to table this order of business until the next World Convention Business Meeting and to just vote on the location for the 9th World Convention as Houston had proposed at the beginning of the 8th Convention. That being to have each city elect one representative to vote on the bids.

VOTE: A vote was taken by a show of hands and the motion was denied.

MOTION: A motion was made and seconded that representatives from each city at the convention would vote on the bids each year.

DISCUSSION: It was stated during the discussion before the vote that a voting representative must be from a city that has local N.A. Groups.

VOTE: A vote was taken on the motion by a show of hands and the motion was denied.

The floor was opened for further proposals and discussion. The following proposals were presented:

- a) A proposal was made that each of the six Regions should have three representatives to vote on the bids.
- b) A proposal was made that a definition for a city should be clarified. The following definitions were presented:
 1. A 'city' is any area with its own phone book.
 2. A 'city' is any area with an N.A. meeting.
 3. A 'city' is a metropolitan area as a whole.
 4. A 'city' is every incorporated city represented at the convention.
- c) A proposal was made that each state at the convention should have two votes.
- d) A proposal stated that the people who come to the business meeting of the convention are the only ones who care enough to vote.
- e) Another proposal stated that the people who are concerned with N.A. as a whole will attend the business meetings.

MOTION: A motion was made and seconded that there be two representatives elected from each state to vote on all future convention procedures and locations.

VOTE: A vote was taken by a show of hands and the motion was denied.

MOTION: A motion was made and seconded that all present and interested at the convention should hear the bids from the various cities, then take this information back to be discussed by the areas within each Region. A representative from each of these areas would then come back to the business meeting and vote on the location of the next World Convention site. There would be one vote from each area.

VOTE: A vote was taken by a show of hands and the motion was carried.

THE DECISION WAS UNANIMOUS!!! (a miracle for this program)

BIDS FOR 9TH WORLD CONVENTION

A motion was made and seconded to hear the bids for the 9th World Convention. It was carried and the bids were presented.

Bids were presented from the following cities and areas:

- | | |
|------------------------|-------------|
| 1. Southern California | 3. Oregon |
| 2. Atlanta, Georgia | 4. Colorado |

First bid - Southern California:

The convention could be held at the Sportsman Lodge at 12833 Ventura Boulevard. There have been seven other conventions held here. The capacity of the lodge is 1000 people. The main ballroom would be available on Friday night, Saturday morning, and Saturday night. There are adequate facilities for hosting the convention. The cost would be \$700 per day - which would include 40 free rooms available on a 'need' basis. Hotel rates are \$31 per day for single occupancy, \$34 per day for double.

Second bid - Atlanta, Georgia:

Before presenting their bid, the Atlanta Area presented a list of suggested bidding requirements for future bidding on World Conventions.

NARCOTICS ANONYMOUS WORLD CONVENTION

BIDDING REQUIREMENTS

1. Three N.A. members with a minimum of one year CLEAN and SOBER, will represent the bidding city.
2. Bidders must have commitments from at least two hotels, including dates, showing availability of banquet and meeting rooms in the hotel and proof that the hotels require no commitment as to numbers of persons attending.
3. Bidders must provide a permanent mailing address for the Convention. The mailing address can be an established one such as: Area Service Committee or present P.O. Box.
4. Assurance must be given that no large scale N.A. activity will be held in their city within a sixty day period before and thirty days after the Convention date.
5. Statements of support from the N.A. Regional Service Delegate, Area Service Committee, and World Service Conference or any such counterpart, must be included in the bid.
6. Prospective bidders will be required to demonstrate financial capabilities within the traditions of N.A. as a whole.
7. Bidders must advise the current committee whether N.A. is registered in their state as a non-profit organization.
8. Bidders must agree that all proceeds after expenses, are to be turned over to the World Service Conference for their disposition.
9. There will be a maximum limit of thirty minutes for the presentation of each bidding city.

Atlanta, -Georgia Bid: (continued)

It was reported that the meetings are growing in the Southeast Region. The World Convention is greatly needed to bring together the groups and the people in the Southeast.

A bid package was presented in a written file by Atlanta. It included all necessary information to hold the Convention in Atlanta. There are two hotels confirmed. Rates were listed as \$9.50 per person per night with four people occupying the room. The banquet tickets would sell for \$10.00. Coffee would be available for \$9.00 per gallon.

Third bid - Ashland Oregon:

Ashland, Oregon, located in the Pacific Northwest, could host the 9th World Convention at the Ashland Convention Center in the late summer of 1979. The Center, newly built, has facilities for 1200 people, with banquet facilities for 700. Rates were listed as: Single - \$24 ; Double - \$29 ; Double with two beds - \$33 ; Triple with two beds - \$34. There are 164 rooms available. There are also 11 motels with 244 rooms nearby. The airport is 12 miles away with free transportation available. There are also free campgrounds available closeby. Ashland is located 650 miles from Los Angeles and only 600 miles from the Canadian border. The convention could be held either in August with camping available, or in October with skiing available.

The only drawback mentioned was the fact that the Shakespearean Festival is held in Ashland which takes up many of the rooms, so reservations would have to be made very early.

Fourth bid - Colorado:

Colorado put in a token bid for the 9th World Convention to be held in either Denver or Boulder. They expressed a dire need for hosting the convention. There are about 60 members in both groups with about a year's sobriety who are extremely willing to work for the convention. Hotel facilities are available in both cities and Boulder also has University facilities available. No rates were presented.

After hearing all of the bids, a motion was made and seconded to comprise a list of qualified representatives, one from each city. These would be the only people qualified to vote on the bids. This would be a sealed voting list with only names on the list able to vote.

The motion was carried and the list was compiled as follows, one representative from each of the following cities:

- | | |
|----------------------------|---------------------------------|
| 1) Scranton, Pennsylvania | 11) Chatsworth, California |
| 2) Minneapolis, Minnesota | 12) North Hollywood, California |
| 3) Denver, Colorado | 13) Whittier, California |
| 4) San Antonio, Texas | 14) San Jose, California |
| 5) Houston, Texas | 15) Melpetis, California |
| 6) Sylmar, California | 16) Garden Grove, California |
| 7) Fontana, California | 17) Santa Rosa, California |
| 8) Pasadena, California | 18) San Francisco, California |
| 9) Los Angeles, California | 19) Norwalk, California |
| 10) Santa Cruz, California | 20) Baton Rouge, Louisiana |

- 21) Wichita, Kansas
- 22) Lincoln, Nebraska
- 23) Boulder, Colorado
- 24) Oklahoma City, Oklahoma
- 25) Atlanta, Georgia

- 26) Ashland, Oregon
- 27) Portland, Oregon
- 28) New Orleans, Louisiana
- 29) Norcross, Georgia
- 30) Vancouver, Colorado

These 30 representatives, after hearing the four bids, went to their respective areas and cities to discuss which bid they would vote for.

After a length of time the representatives were handed individual ballots and they cast their city's vote. The vote was by secret ballot and the results were to be announced at the banquet that evening.

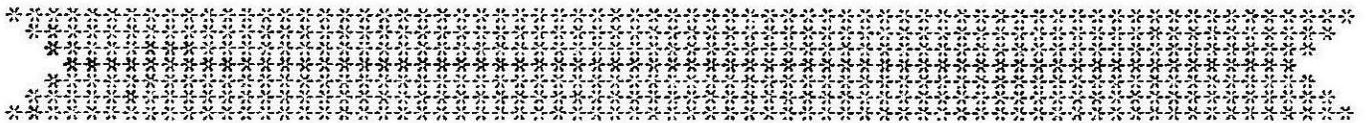

A motion was made to count the votes then and there at the business meeting, so that in case of a tie vote, a new vote may be taken. After discussion this motion was denied.

A motion was made and seconded that in case of a tie vote, the chairperson would cast one vote to break the tie. After some discussion this motion was carried and the winning city was announced at the banquet.

A motion was made and seconded that there being no other new business to be presented to the business meeting, that the meeting be adjourned until the next World Convention in 1979.

This motion was carried UNANIMOUSLY (and gratefully) and the 8TH WORLD CONVENTION BUSINESS MEETING was adjourned at 1:15 P.M.

The meeting was closed with the LORD'S Prayer.

POSTSCRIPT

The winning city was announced at the banquet held on Saturday night, September 23, 1978.

THE 9TH WORLD CONVENTION OF NARCOTICS ANONYMOUS IS TO BE HELD IN

SEE YA' THERE!!!
