Jim M
acting chairman WSC sub-comm.

Dear Jim:

In response to your letter dated April 12, I wish to tell of my experiences of the N.A. Way.

My first submission to the N.A. way was written to help out the magazine. I heard they needed help. I didn't know that sharing my story + other writings would help me to grow also. In writing, I get another chance to look at myself. Also I am grateful that with little clean time I have (5 mo.) I can still share + possibly help other addicts. I myself have received plenty from the stories of other addicts which I may have never gotten a chance to

know without the N.A. Way.

As for the list of members from my local fellowship who have helped with this project, there are none. Pretty sad. In realizing this, I'm persuaded to get on the ball and spread the word about the N.A. Way, not only perscriptions but writings also. I now see that I have showed something in a corner which by all means should have been brought up at all meetings. (One defect I'm working on)

As for the printing of 150 copies of each back issue consider my vote yes. I don't think I have enough input about lost subscribers and the ~~at~~ amount of back issues sold to give a true reply. Since you'll consider my vote to be yes if I don't respond I

feel I don't have much choice.

In conclusion to your letter,
yes I do support you as
chairman of this sub-committee
at WSC '83. Keep up the good
work Jim. I'm glad you
so involved in putting and
keeping together the N.A. way.

Love
Brenda
