

The Afghani NA community:

NA meetings were started in Afghanistan about two and a half years ago by two members who had found NA in **Iran**. In 2011, a fellowship development trip from **Iran** to Afghanistan was organized by the APF.

Our PR Efforts:

I have been a trusted servant from the early days of my recovery in the NA community in **Iran**, and I have also had opportunities to serve in many different parts of the world. I can say that I have learned a lot from this trip to Afghanistan. This country eagerly awaits the message of recovery, and fortunately, the NA program has found its way into the country.

I am truly blessed by being a member of Narcotics Anonymous. Finally, we returned home to **Iran**, but our hearts stayed back in Afghanistan. *Mahmoud C, Tehran, Iran*
