POSITIVE CHANGES:

1. Access to the press. Differing viewpoints must be heard. As it stands they are not being represented by the WSO. Access must be provided to the Newsline and/or Fellowship Report mailing addresses. An un-edited/un-censored mailing will be sent out by the WSO to these addresses. This mailing will contain opinions, ideas, and information from Fellowship members, committees, and service bodies who are not being represented by our world service and whose voice is not being heard by the Fellowship at large.

Already, information of this kind has been sent out through other channels and experience shows there are enough members, servants, and committees interested in hearing all viewpoints to warrant this kind of mailing. If the WSO and WSC is truly interested in fully serving the Fellowship, then full access to differing viewpoints and opinions is a desirable end for all of us.

2. Fellowship-wide access to a complete, independent audit of the WSO including salaries of all paid workers. If an individual owns stock in a corporation, this kind of information is routinely provided. Each member of NA is like a stockholder in the business of NA and, as such, deserves access to our fiscal information.

3. The Fellowship Team Approach. Organize and implement an alternative draft of It Works: How and Why. Teams of volunteer addicts will gather at literature workshops to complete the draft. The cost to world services would be minimal. The workshops will be hosted by various regional or area lit committees. The WSO or WSC will primarily be called upon to disseminate information about the workshops.

The final result, two drafts of It Works, will provide the Fellowship with a choice; between NA literature written by paid staff team writers and NA literature written by addicts at workshops.

4. Adjust literature prices internationally to reflect the resources of members in different countries.

5. Issues of racism, classism, and sexism must be addressed in our service structure. Our service structure must more accurately reflect the diversity of our membership.

6. In response to the 43% drop in donations to the WSC, the Conference will distribute a questionnaire to the fellowship asking things such as: What do you want from the WSC? Does your region feel it is being served by the WSC? If not, why.

Dave,

Don't forget Volume 6/#7 "Newsline"-
asic Text Controversy Subsides. Complete
utter lips + fabrication.
Good-luck!
